

Weather Forecast

Plan on being
warmer tomorrow
with a 60 percent
chance of light
karma mixed
with opportunity.

No storms
are in sight
until Friday
when a wave
of retribution
sweeps in
from the West
to spread doubts
and briefly intense
doomshowers.

Your historical high
for this date
has been forgotten
and let's not even
think about your low.

Tune in tomorrow,
way in,
and remember,
if you don't have
any weather,
you are somewhere
else.
