# A Grand View Centerfold Chart of The Secret Doctrine

The question asked is, "Why me?" Especially when we get a heavy dose of karma. And yet, anytime, the answers are in the more meaningful question: What is the origin, nature, and destiny of our universe and of our humanity? Enter, *The Secret Doctrine*.

The Stanzas of Dzyan, from the Books of Kiu-te [*rGyud-sDe*], are the original source of *The Secret Doctrine* as written by H.P.B. The stanzas and verses are but a few excerpts, a total of 19-stanzas and 103-verses with commentaries (Book I, Cosmogogenesis, 7-stanzas with 53-verses; Book II, Anthropogenesis, 12-stanzas with 49-verses). The voluminous commentaries are a compendium of esoteric insights into the significant philosophies, sacred scriptures and, the myths, legends and fables scattered throughout history.

The Absolute Reality is the One Ultimate Ground of the Unmanifest and Manifest universe (*See Centerfold Chart*). The Absolute expresses Itself as Absolute Polarity and Absolute Potency in Its state as the Unmanifest. Unmanifest Potency becomes the Manifest Macrocosm. Unmanifest Polarity (The Eternal Parent) brings forth the Manifest Microcosm.

Grand View Centerfold Chart: The Secret Doctrine

Here is your best workable and mature answer to the origin, nature, and destiny of our universe and of our humanity. The "Manifestation of Cycles" proceeds in harmony with the "Seven Basic Principles" advanced by the resoteric [real esoteric] teachings, unfolding from unconscious perfection through conscious imperfection to conscious perfection, governed by the "Seven Universal Laws of Fate and of Destiny."

Manifestation of Cycles

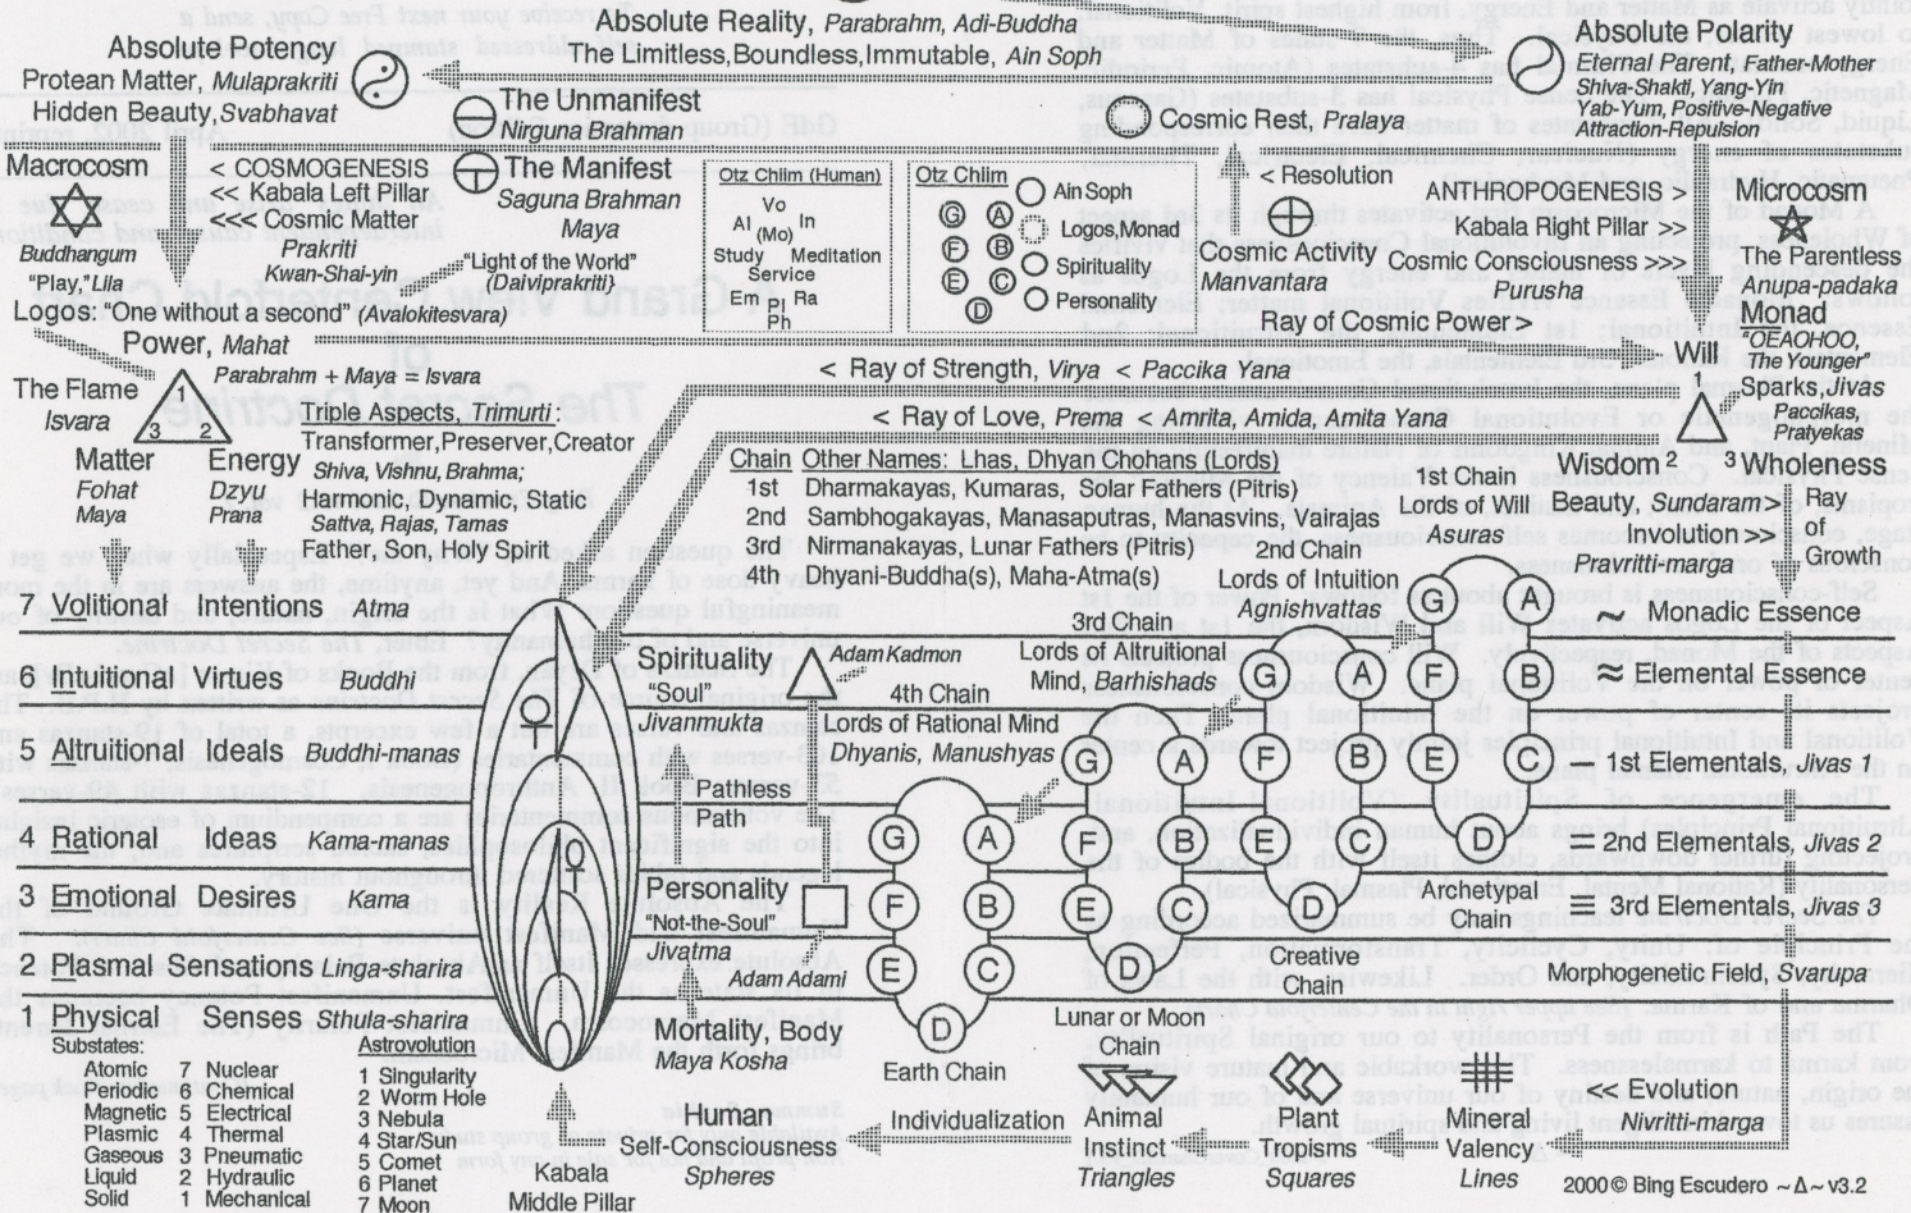

- 1 Solar System = 10 Schemes
- 1 Scheme = 7 Chains
- 1 Chain = 7 Rounds
- 1 Round = 7 Globes
- 1 Globe = 7 Root-races
- 1 Root-race = 7 Sub-races
- 1 Sub-race = 7 Branch-races

Seven Basic Principles of The Secret Doctrine:

- 1 Unity
- 2 Cyclicity
- 3 Transformation
- 4 Perfection
- 5 Hierarchy
- 6 Synchronicity
- 7 Order

Seven Universal Laws:

- Of Dharma, Destiny
- 7 Volition = Freedom
- 6 Intuition = Understanding
- 5 Altruism = Karmalessness
- Of Karma, Fate
- 4 Thought = Becoming
- 3 Desire = Object
- 2 Sensation = Conditioning
- 1 Action = Environment

*(Continued from Front page, kindly keep referring to the Centerfold Chart)*

The Macrocosm becomes a Logos or Divine Flame with three Aspects (Transformer, Preserver, Creator). The Microcosm becomes the innumerable Monads or Divine Sparks, each Monad with three aspects (Will, Wisdom, Wholeness).

The Creator and Preserver (3rd and 2nd Aspects of the Logos) jointly activate as Matter and Energy, from highest spirit, Volitional, to lowest matter, the Physical. Thus, the 7 states of Matter and Energy emanate. The Plasmal has 4-substates (Atomic, Periodic, Magnetic, Plasmic). The dense Physical has 3-substates (Gaseous, Liquid, Solid). All 7-substates of matter have their corresponding substates of energy (Nuclear, Chemical, Electrical, Thermal, Pneumatic, Hydraulic, and Mechanical).

A Monad of the Microcosm first activates through its 3rd aspect of Wholeness, projecting an Involutional Consciousness that vivifies the descending levels of matter and energy from the Logos as follows: Monadic Essence vivifies Volitional matter; Elemental Essence, the Intuitional; 1st Elementals, the Altruitional; 2nd Elementals, the Rational; 3rd Elementals, the Emotional.

At the Plasmal plane, the Involutional Consciousness becomes the morphogenetic or Evolutional Consciousness vivifying the Mineral, Plant, and Animal Kingdoms of Nature manifesting on the dense Physical. Consciousness is the Valency of the Mineral; the tropisms, of the Plant; and instinct, of the Animals. At the human stage, consciousness becomes self-consciousness, the capacity to be conscious of one's consciousness.

Self-consciousness is brought about as follows: Power of the 1st Aspect of the Logos activates Will and Wisdom, the 1st and 2nd Aspects of the Monad, respectively. Will consciousness projects its center of power on the Volitional plane. Wisdom consciousness projects its center of power on the Intuitional plane. Then the Volitional and Intuitional principles jointly project towards a center on the Altruitional Mental plane.

The emergence of Spirituality (Volitional-Intuitional-Altruitional Principles) brings about human individualization, and, projecting further downwards, clothes itself with the bodies of the Personality (Rational Mental, Emotional, Plasmal, Physical).

*The Secret Doctrine* teachings may be summarized according to the Principle of: Unity, Cyclicity, Transformation, Perfection, Hierarchy, Synchronicity, and Order. Likewise, with the Laws of Dharma and of Karma. *(See upper right in the Centerfold Chart)*

The Path is from the Personality to our original Spirituality, from karma to karmalessness. This workable and mature vision of the origin, nature, and destiny of our universe and of our humanity assures us toward intelligent living and spiritual growth.
