

Dear Alan,

Hope you and Linda are A-Okay.
Enclosed are some updated Papers.
The Tacoma TS is taking much of our
Time. There are a growing number of
regulars that come to our Sunday
meetings, but only four solid workers.

It's to be expected for being one
Root-race ahead of the Times. The Seeds
are planted now. The next work is to
come back for the Harvest. The Grains
of Wisdom will be shifted. The best of the
Harvest will be the Seeds of the Last Root-race
of this World-Period. Thanks so much for
your valuable help. Peace,

Dear Alan,

Very much appreciate your help.
Will let you know when I can cope
with a Website. Right now am
still using an Apple Mac Performa
at 33 MHz. My Mac is behind by
300 MHz, but it produces all the
Summa Sophia papers.

In two days the hospital will do
a CAT scan on this body undergoing
repairs, otherwise it's still usable.
May the blessings from on High
guide, enhance, and protect you and
your family. ♡ Brief 10/4/6⁴¹ AM

Dear Alan -

We sort of give you most
of his writings.
The doctors are stumped
& we will just let the
cancer take its course.
Meditate for his healing.
Thanks - Rosie

Dear Alan & Linda,

Thanks so much for your
call. Here's the "stuff" (Web)
we talked about. Enclosed are
a couple of Summa Sophia
Papers. There's more to send
you when we get to it. Nice
to know you are A-Okay. Shanti,

Brief + Rosie
